# Goodbye Dr. Amadei

Arya Pillai

For 10 of the 21 years ICS has been a school, when we think of our principal, we think of Dr. Amadai. But as for the 2017-2018 school year, it is the last year we think of him as that.

Dr. Amadai got a promotion from principal to Assistant Superintendent. Don't worry, we will see him again, so don't lose your head. In our hearts, we will always think of him as our principal. We don't have a new principal yet, so Dr. Amadai and the staff are trying hard to find a good one. If you see him in the hallway, make sure to tell him how much you will miss him. It is nice that he also chose our school to be principal at. I'm sure I can talk for all of us when I say, "Goodbye, Dr. Amadei. We will miss you, thank you for everything you have given ICS and we hope to see you again soon!"

## The Daily Herald Goes To Iroquois

Arya Pillai

On May 10, the kids in the newspaper club had a visitor. The visitor did the same thing as us: write in the newspaper. He was Chris Placek, a Daily Herald reporter.

While he visited, Chris gave us a newspaper to look at as he explained how the newspaper was made, and how difficult it can be sometimes to work in the press. Lots of questions were asked and answered. To some people, seeing a newspaper was strange, because their parents watched the news on cable or read it digitally. For others, it was familiar because their parents read the paper often.

Chris also explained how reporters and journalists have to rush over to places late at night so they can get the story and into the paper for the next issue to have the story.

Chris' job is hard. But it is fun.

## Websites For Kids

By Arya Pillai

Today, kids are drawn to their tablets, phones, laptops and desktops like moths to a flame. Websites can be handy so you don't bore yourself to death during the five weeks we're gone.

To keep your math skills on point, try [Prodigy](#). Prodigy is a game in which you adventure across an island, battling monsters with your math skills. It is a perfect game if you hate plain math games and want something fun.

Another website is [Sumdog](#). With options to choose from, you can prove your math, science, language arts, and more through competition from other kids.

If you're looking for a way to make 3D buildings, I'll recommend [SketchUp](#). With SketchUp, you can make 3D buildings, look at the parameters, add textures, and so on. The only general thing you need to know is basic building (Volume, area, perimeter, ect.).

Also, if you want to know all about everything and how their made, look no further then [Little Alchemy 2](#). With basic 4 elements, water, earth, fire and air, you can make everything from lava to tornados to life.

All of these websites look to teach you something in a fun way (maybe not Little Alchemy 2, but it is generally fun, at least in my opinion). See what you can do, and remember, don't get obsessed (Seriously, your parents will have to drag you away if you get obsessed).

A LITTLE POETRY TO BRIGHTEN YOUR SUMMER ON CLOUDY DAYS...

**Summer is here ,summer is there, summer is almost everywhere!**

**Squirrels are up and running again and bears are coming out of their den.**

**School is over, so move on over, you might find a 4 leaf clover!**

The Vegas Golden Knights was a team formed in 2017 and are in the Stanley Cup playoffs 2018. And people were surprised when Vegas was in first place because most new teams are bad but Vegas was good they were 54 wins, 24 losses, 7 overtime loss, and 109 points. They have a mascot named Chance because they have a chance at winning the Stanley Cup!

# Chicago White Sox

The Chicago White Sox are an American professional baseball team based in Chicago, Illinois. The White Sox compete in Major League Baseball as a member club of the American League Central division.

From, Wikipedia

One day, when the White Sox celebrate a run of extended postseason success, the bold and aggressive trades of Chris Sale to the Red Sox, Jose Quintana to the Cubs and Adam Eaton to the Nationals — and to a lesser degree the package of David Robertson, Todd Frazier and Tommy Kahnle to the Yankees — will be remembered as the moves that started it all.

Or they will be looked at like a fine idea at the time, but another failed attempt by general manager Rick Hahn and vice president Ken Williams to replicate the championship season of 2005.

**Chris Sale for second baseman Yoan Moncada, right-hander Michael Kopech, outfielder Luis Basabe and right-hander Victor Diaz.**

Sale (2.17 ERA in his first nine starts in 2018 after finishing second in Cy Young voting in 2017) might be better than ever as he continues to dominate, but Moncada (.243/345/.447, 14 homers, 37 RBI, seven stolen bases in 83 games with the White Sox) has lived up to the No. 1 prospect billing he arrived with, and if Kopech (44 strikeouts, 17 walks, 4.86 ERA in four Class AAA starts) adds better command to his extraordinary stuff, he and Moncada could arguably make the deal a win by themselves. What's more, the arrow is pointing up on the fleet Basabe (.277/.386/.529, five homers, 20 RBI at high Class A Winston-Salem). Sale will enter free agency after next season.

**Dec. 7, 2016**

**Adam Eaton for right-handers Lucas Giolito, Reynaldo Lopez and Dane Dunning.**

Eaton's affordable contract with team control through 2021 notwithstanding, Nationals GM Mike Rizzo was criticized for giving up too much in this one, and Eaton's struggle to stay healthy (he has played in 31 games for Washington and had ankle surgery) hasn't helped Rizzo's cause.

Giolito got top billing in the Sox haul but his command problems are cause for concern while Lopez (2.44 ERA in seven 2018 starts), viewed as the sleeper in the deal, has looked like top-of-the-rotation material. And keep an eye on Dunning (2.59 ERA in four starts at Class A Winston-Salem), a strike thrower who responded to his fast promotion to Class AA Birmingham with a 2.78 ERA over four starts.

**July 13, 2017**

**Jose Quintana for outfielder Eloy Jimenez, right-hander Dylan Cease, corner infielder Matt Rose and infielder Bryant Flete.**

This trade was widely viewed as a good one for both teams, but Jimenez' can't-miss expectations alone as potentially the biggest star of the entire bunch could win the deal by himself. Cease (4-2, 3.67 ERA, 42 strikeouts in 32, innings at Winston-Salem) has an upper 90s fastball and a plus curveball and profiles as a future rotation piece or perhaps a closer. Quintana, under affordable club control through 2020, solidified the Cubs rotation in their 2017 run to the NLCS but has pitched to a 5.23 ERA in 2018.

**July 18, 2017**

**Todd Frazier, David Robertson and Tommy Kahnle for outfielder Blake Rutherford, left-hander Ian Clarkin, outfielder Tito Polo and veteran right-hander Tyler Clippard.**

The return on this one made the least splash of the four deals, although Rutherford (.315/.341/.500, three homers, 30 RBI, six stolen bases in 30 games at Winston-Salem) was MLB Pipeline's No. 30 prospect at the time. Clarkin, taken a pick behind Aaron Judge in the first round of the 2013 draft, is 3-4 with a 6.75 ERA in seven starts at Birmingham. Polo, a center fielder, is batting .239/.305/.333 at Birmingham.

## The Lost City Of Cat Nibble

by: Elia Muriel and Samantha Joseph

One day long ago there was a Cat named Journey. He was looking around in the attic where his owner was. He saw a little piece of parchment paper sticking out under a box. "Meow, what's that," he thought. Journey was scratching the piece of paper (his attempt was pulling it

out but you can tell scratching is not going to work) then he tried to push the boxes away but then, "BAM!!" the boxes fell on top of Journey. Journey was screeching and meowing for help for his owner Emma.

Emma came to save him and said "What a silly cat, hey what is this that you have found?" Emma took the paper from Journey and looked at it. "wow! Look at this. She said. Hey, there is another clue like this down stairs in side of the floorboard!, Journey let's go down stairs and look for the next clue!" when Emma and Journey got down stairs they look for the exact board. They found it and saw the next clue it said " roses are red, violets are blue, the next clue is where flowers would bloom! When Emma saw that she said "Well that obvious it in the flower garden."

When Emma arrived at the flower garden she saw another piece of parchment paper, it was identical to the last two she saw. "Journey look!" she said as she discovered it. "Meow?" Journey was very confused. "Lets see what it says," She said. "I am an odd number but if you take out one I become even what number am I...Oh it also says: And also you can also see me on the outside of this house." She read. "What number could it be?" then she thought " a number outside the house... The houses number 678." Then emma raced to the door journey caught up. On Top of the door there was the house number. "I am an odd number take out one I become even." she thought wait a minute it is six!!" she opened the number 6 but yet water came squirting at her "ahh!!"

She tried to close it but it didn't work. "I got to find this clue out now." She said "Wait i think i get this now... I am odd number which is 7 you take it out you get even ,if you take one letter out of seven which is is "S" you get even!!" So she opened the 7 and water stopped squirting at her. Inside of the 7 there was a key "I've see a keyhole that matches this keys shape." Emma said. Then she and Journey went inside of the house and moved out the rug. There was a small door she opened the door with the key they found. There was another piece of parchment paper and it said " I am fluffy and stuffed and I usually look like an animal Emma said this is soooooo easy to do it stuffed animals let's go to it journey! So they went in and emma found the hidden door she said "maybe we can try this key to open the door and when they did they entered the lost city of cat nibble. Emma saw all the fluffy cats and Journey realized that he could talk. Emma was really shocked that Journey could talk. When Emma's mom called he she said where are you? She said "Just across the street mom! Don't worry I will be home in time for dads surprise birthday party". Emma went home and she came back the next day. When she went to school the next day she told all her friends about Journey being able to talk and they did not believe her. So she invited all her friends over to her house afterschool so they could see for themselves that Journey could talk. THE END

**Kolachky(Cloch- Kee)Recipe by: Sophia foodnetwork.com/ recipes**

### **Ingredients**

- 2 (8 ounce) packages cream cheese, room temperature
- 2 cups unsalted butter, softened
- 4 cups all-purpose flour
- 1 pound chopped walnuts
- 1 egg
- 1/2 cup honey
- 1 (12 ounce) can poppy seed filling
- 1 egg white
- 1/2 cup confectioners' sugar for dusting

### **Directions**

1. In a large bowl, mix together cream cheese and butter until well blended. I like to use my hands, but you can also use a wooden spoon. Mix in the flour 1 cup at a time. As the dough becomes stiff, turn it out onto the counter and knead in flour until it is no longer sticky. Continue to knead the dough for 5 minutes.
2. Preheat oven to 350 degrees F (175 degrees C). Crush the walnuts to a fine consistency in a food processor. Stir in the egg and honey. On a well floured surface, roll the dough out to 1/4 inch thickness.

Cut the dough into 3x3 inch squares. Place a teaspoon of filling in the center of each square. Use walnut for some and poppyseed for the rest. Roll the squares up and seal the edges. These can also be formed into triangles. Place the cookies 2 inches apart onto ungreased cookie sheets. Brush with egg white.

3. Bake for 15 to 17 minutes in the preheated oven, or until lightly browned. When cool, dust with confectioners' sugar.

Churros by: Sophia

#### Ingredients

- 1 cup water

---

- 1/2 cup butter or margarine
- 1/4 teaspoon salt
- 1 cup all-purpose flour

- 3 eggs, beaten
- Vegetable oil, for frying
- 1/4 cup sugar
- 1/4 teaspoon ground cinnamon, optional

**Chocolate for dunking:**

- 1 tablespoon cornstarch
- 2 cups milk
- 4 ounces dark chocolate, chopped
- 1/4 cup sugar

**Directions**

To make the churro dough: Combine 1 cup of water with the butter or margarine and the salt in a saucepan and bring to a boil over high heat. Using a wooden spoon, stir in flour. Reduce the heat to low and stir vigorously until the mixture forms a ball, about 1 minute. Remove the dough from the heat and, while stirring constantly, gradually beat the eggs into the dough.

To make the chocolate for dunking: In a small bowl, dissolve the cornstarch in 1 cup of milk and reserve. Combine the chocolate with the remaining cup of milk in a saucepan. Stirring constantly, melt the chocolate over medium-low heat. Whisk the sugar and the dissolved cornstarch into the melted chocolate mixture. Reduce the heat to low and cook, whisking constantly, until the chocolate is thickened, about 5 minutes. (Add extra cornstarch if it doesn't start to thicken after 5 minutes.) Remove the pan from the heat and whisk until smooth then reserve in a warm place.

Heat about 2 inches of oil in a heavy, high-sided pot over medium-high heat until the oil reaches 360 degrees F. Mix the sugar with the cinnamon on a plate and reserve.

Meanwhile, spoon the churro dough into a pastry bag fitted with a large tip. Squeeze a 4- inch strip of dough into the hot oil. Repeat, frying 3 or 4 strips at a time. Fry the churros, turning them once, until golden brown, about 2 minutes per side. Transfer the cooked churros to a plate lined with paper towels to drain.

When the churros are just cool enough to handle, roll them in the cinnamon-sugar (in Spain churros are simply rolled in sugar.)

Pour the chocolate into individual bowls or cups. Serve the warm churros with the chocolate dip.
